Allies See Hun Hand in Austria's Offer

AMERICANS HAD LITTLE AID FROM FRENCH DIVISIONS

Force Was Small and Brunt Of Fighting Was Borne By Yankees

HARDEST FIGHT MADE NORTH OF ST. MIHIEL

Gen. Pershing's Troops Fought Way Through Dense Woods

With the American Army in France, Sept. 15 (Sunday)—(Reuters)—The role of the French divisions engaged in the St. Mihiel battle was to attack the head of the salient and assist the Americans in their drive against its western front while the main mass of the Americans was to attack the head of the salient and push from the southern side. Only a few French divisions were engaged, one of which was under American command and formed the extreme left of the attack on the western front of the salient. It had a powerful force of Americans on its right.

This Franco-American army started from the region of Les Eparges and advanced southward to join hands with the Voivre army from Vigneulles. Other French divisions cooperated in the attack on both sides of the blunt head of the salient. The hardest task fell to the division which attacked north of St. Mihiel. It had to fight its way across the densely wooded mass of the heights of the Meuse and carry hills of 1200 feet in the face of enemy resistance. This division alone took 2500 prisoners, of whom 2300 were Austrians.

St. Mihiel, cut off from the north and the south, was taken without a fight, the Germans slipping out on Thursday night. Aware that an attack was imminent, they had evacuated the salient, to the Hindenburg line, as they call this section, the "main line of defense." This position spans the base of the salient from Blain to the village of Pagny.

The attack was launched at exactly the right moment. Had it been postponed a day or two longer, the enemy would have had his troops safely entrenched away behind the Hindenburg line, and the allies would have captured neither men or material. Enemy stores and depots in the salient had to be burned and the Germans set to work in the plain beyond the Meuse, but the damage done was less than anticipated.

GERMAN LOSSES HEAVY IN SATURDAY ATTACK

With the French Armies in France, Sunday, Sept. 15.—The sacrifices the Germans are making to stop the allied advance toward the Chemin des Dames are evidenced by the large number of the enemy dead found on the field of Saturday's operations. The number of prisoners taken during the day is more than 3500 is very large for the length of front attacked.

The dead are thick around Laffaux mill and east of Vauxaillon where the enemy counter-attacked violently today in a vain effort to regain the positions he lost Saturday. General Mangin's troops not only maintained all their gains but pushing on from Vauxaillon, captured the plateau to the southeast, which gives them a vantage ground of great importance. Extending the field of battle to the south the French also made appreciable gains by occupying Mennejean farm and ground considered to be the east of the Chemin des Dames. Further south they took by storm hill No. 169, north of Colles-sur-Aisne.

The Germans came back repeatedly in strong force all along this front and fought stubbornly but with no other result than to increase their own heavy losses. While these actions seem to be only details when compared with the recent larger operations, their significance appears clearly from the determined efforts made by the Germans to stop them.

Further advances by the French on the high ground, west and south of the Chemin des Dames, will make the German positions there very precarious.

GERMAN DECLARES WAR SHOULD END

Amsterdam, Sept. 16.—Socialist members of the municipal council of Berlin raised the food question in a public debate in the council meeting on Thursday, according to advices in the Telegraf. One speaker, after denunciatory remarks exclaimed:

"It is time the war came to an end."

His words were greeted by loud applause from the public gallery.

NEHLS ASSIGNED TO DUTIES HERE

Fred C. Nehls, limited service man who was sent to Camp Sherman a week ago for his equipment has returned to Newark.

Today he assumed his duties in the service as clerk in the office of local draft board.

CHARLES ORDERS OFFER OF PEACE; NOTE IS AWAITED

Capital Believes Note Is German Ruse To Avoid Defeat

ALLIES MAY SEND NO ANSWER TO EMPEROR

Announcement of Offer Causes No Surprise In Official Circles

Amsterdam, Sept. 16.—The note in which Austria-Hungary invited the belligerents to accept for discussion for possibilities of peace was dispatched by Baron Burian, the Austro-Hungarian foreign minister, on the order of Emperor Charles, the Cologne Volks Zeitung declares.

AWAIT OFFICIAL TEXT.

(Associated Press Telegram) Washington, Sept. 16.—Receipt of the official text of the Austrian peace proposal was awaited today by the officials here, but unless the communication is couched in terms radically different from the version contained in press dispatches it was felt that the entire plea could be characterized as a German ruse to obtain the best possible terms before an allied victory could impose the most severe punishment upon her.

The proposal as viewed by officials, it was reiterated, does not contain a single basis upon which the entire powers and the United States would be willing to meet the authors of the plea. In most circles it was held that the putting forth of the proposals at this time was but an admission of the growing weakness of the central powers.

Evidence that such a proposal was to be made soon have been frequent recently and the announcement of the offer did not come as a surprise to officials here.

There was doubt today whether a reply would be sent. If a reply is made, it was considered likely that the allies would make a joint answer after an exchange of views.

GERMANY REPUDIATES NOTE.

(Associated Press Telegram) Paris, Sept. 16.—It is reported from a Berlin semi-official source that Foreign Minister Burian's move in indicating the note inviting the belligerents to a conference constituted an act binding Austria alone, says a Zurich dispatch today. Germany, it is declared, took no part whatever in drawing up the note.

ENEMY NOT HOPEFUL FOR PEACE OFFER

Amsterdam, Sept. 16.—The peace initiative should have been left to the entente allies, according to the Tages Zeitung of Berlin, which comments on the Austrian peace note.

"The fate of all previous announcements as to readiness for peace and a conciliatory spirit on the part of the central powers does not encourage great hopes that this offer will meet with greater success," the newspaper says.

"It must naturally encounter great skepticism on our part."

"After our experiences hitherto with peace proposals," says the Lokal Anzeiger, "we are not inclined to feel feelingly skeptical."

Austria's move may prove quite a "risky step," says the Neueste Nachrichten of Berlin. The Boersens Zeitung places no very great hope in the offer and the Berlin Post fears the offer will be again interpreted by entente countries as weakness and a sign of impending collapse, as well as a begging for peace on the part of the central powers.

"A discussion of the timeliness of the Austrian step is useless," says the Vorwarts. "Once it was made without German government taking a similar step, there is nothing for Germany to do but to give its adhesion. That is the only way of preventing harmful effects and permitting the good efforts to be fully developed. Austria's peace tentatives will be welcomed by the widest circles of the German people, but it is necessary to utter a warning against over-hasty optimism."

"Through the fault of both sides obstacles to peace have been piled mountain high," according to the Krene Zeitung, which fears that the Austrian note "will be futile and may even lead to a result opposite to that intended."

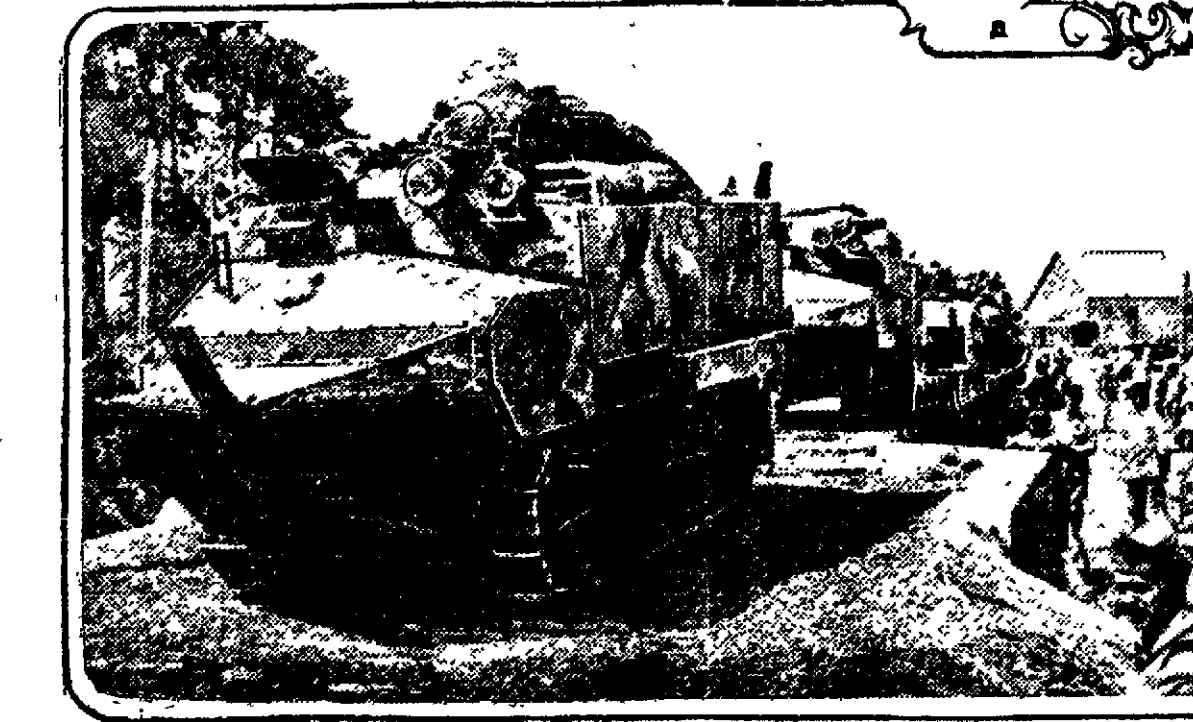

DISCUSSION WOULD NOT BE BINDING, NOTE SAYS

Amsterdam, Sept. 16.—In extending an invitation to all the belligerent governments to enter into nonbinding discussions at some neutral meeting place, the Austro-Hungarian government states that the object of the conference would be to secure an exchange of views which would show "whether those pre-requisites exist which would make the speedy inauguration of peace negotiations appear promising."

The Austrian proposal, which is announced in an official communication telegraphed here from Vienna, suggests that there be no interruption of the war, and that the "discussions" would go on only so far as considered by the participants to offer prospects of success.

The proposal calls for all the belligerents to send delegates for a "confidential and unbinding discussion of the basic principles for the conclusion of peace, in a place in a neutral country and at a near date that would yet have to be agreed upon."

TANKS AID AMERICANS AND FRENCH IN NEW DRIVE

Again are the French tanks playing an important part in the allies great advance. In the smash by the Michiel salient and French on the St. Mihiel salient these tanks drove the Huns before them, cut down wire entanglements, routed machine gun nests and aided the infantry in many ways. The knife used in cutting through wire entanglements can be seen on the front of the tank in the foreground. The tanks are shown leaving their base to take part in the attack.

BOLSHEVIKI HINT AT HUN ALLIANCE

Lenine "Becomes Convinced" His Government Is Powerless to Establish Order in Russia.

(Associated Press Telegram) Amsterdam, Sept. 16.—Hints that the Bolshevik government of Russia may seek alliances with other powers are contained in a note addressed to the People's Commissaries and Soviets by Nikolai Lenin, the Bolshevik premier, printed in the Pravda of Petrograd and republished in the Lokal Anzeiger of Berlin. The note reads:

"The position on the Czechoslovak front is becoming more dangerous daily. We are daily becoming convinced that alone we are powerless. For the government there is only one way out, namely to conclude a defensive and offensive alliance with another power."

"In order to save the power of the workers and peasants, we must not even recoil from an alliance with imperialists."

ASKS COURT TO BAR GAS APPEAL

City Files Motion to Dismiss Appeal in Distribution of Balance of Escrow Fund.

The city of Newark today filed a motion to dismiss the appeal of the gas company in the matter of the distribution of the remainder of the escrow fund of \$30,000, citing that the court of appeals had no jurisdiction in the matter. The lower court had held that it had no jurisdiction. The date for the hearing of the motion has been set for October 9.

COURT REFUSES TO GRANT MOONEY WRIT

(Associated Press Telegram) San Francisco, Sept. 16.—The California supreme court today denied Thomas J. Mooney permission to seek a writ of error in the United States supreme court. This was said to be the defense's last move in the state courts. Mooney was sentenced to be hanged following his conviction for murder in connection with a bomb explosion here two years ago.

ISSUES CALL FOR 520 CLASS 1 REGISTRANTS

(Associated Press Telegram) Columbus, Sept. 16.—A call for 520 Class One men to be sent to Camp Sherman, Ohio, Sept. 24 was received at the draft headquarters today. Local quotas have not yet been fixed.

REGISTRATION ONE PCT. ABOVE U. S. ESTIMATES

(Associated Press Telegram) Washington, Sept. 16.—Returns from the registration on last Thursday of men from 15 to 45 on the basis of a few states complete and partial figures from all others, indicated today that the total would be 101 per cent of the estimated 12,000,000.

RAIN PREVENTS CIRCUIT RACES

(Associated Press Telegram) Columbus, Sept. 16.—The opening card of the two weeks meeting here of the Grand Circuit races was postponed today because of rain and a heavy travel. The card will be raced to tomorrow.

CREW SPENDS 5 DAYS AFLOAT; VESSEL SUNK

(Associated Press Telegram) An Atlantic Port, Sept. 16.—The Portuguese steamship Leixoes was torpedoed in the north Atlantic five days ago, according to 16 members of the crew who arrived here today. They had spent the interval in an open boat. It is feared that 25 members in three boats may have been lost.

SERBIAN ARMY IS AGAIN IN ACTION

WIN STRONG POSITIONS FROM BULGARS ALONG SALONIKI FRONT MARKING RECOVERY OF SERBS

FRENCH UNITS AID IN NEW DRIVE AGAINST BALKAN ALLY OF GERMANY

British and French Forces Make Gain In Drive Toward Hindenburg Line—Americans Consolidate Positions East of St. Mihiel.

Washington, Sept. 16.—Launching of an offensive against the Bulgarians on the Saloniki front by the re-organized Serbian army, in co-operation with French forces, and the capture of three strongly fortified Bulgarian positions, is announced in an official Serbian communication received here from Saloniki.

The positions taken are Teak Vetrenik, Dobropole and the mountain Sokols, which the Bulgars had held for the past 2-1/2 years and were regarded as their strongest places. Starting yesterday after artillery preparation, the Serbians and French moved forward, captured their objectives and were still going when today's dispatch was filed.

FRENCH TROOPS CONTINUE PROGRESS

(Associated Press Telegram) Paris, Sept. 16.—The town of Vailly, on the north of the Aisne, east of Soissons has been captured by the French, the war office announced today. The French have continued their progress between the Oise and the Aisne and captured Mont des Singes.

TOMMIES PUSH ON TOWARD CAMBRAI

(Associated Press Telegram) London, Sept. 16.—British troops last night advanced their lines north of the Arras-Cambrai road, establishing posts in the vicinity of Sauchy Chauchy and Oppy, according to today's report from Field Marshal Haig.

On the Flanders front the British pushed ahead in a successful minor operation on both sides of the Ypres Comines canal on a front of more than two miles.

BRITISH TAKE TOWN NEAR SAINT QUENTIN

(Associated Press Telegram) (With the British Army in France, Sunday, Sept. 15.—Halesme, a village five miles northwest of St. Quentin, has been captured by the British. The place was taken during a local attack directed against the high ground upon which this hamlet is situated. This adds another important position to those recently taken along the ridges west of St. Quentin.

A little below this place and to the southeast of Holesme, the British also improved their lines slightly. Fighting of local nature continues on the northern battle front near La Bassée, where the enemy has been forced to give ground steadily. Beyond this, no important infantry action has been reported but heavy artillery duels have been fought at numerous points.

British gunners bombarded the Hindenburg line fiercely for hours yesterday and heavy enemy losses were inflicted. The German gunners have been maintaining an intense fire in the Gouzeaucourt sector and deluged Havrincourt with explosives yesterday. Today brought the first fair weather the British front has seen for a week. The sun came out bright and warm this morning and has been rapidly drying out the water-logged ground over which it was becoming increasingly difficult for troops to operate.

YANKEE VICTORY IS CELEBRATED IN LONDON

(Associated Press Telegram) London, Sept. 16.—American residents of London celebrated the American victory in hotels and public places last night, singing "The Star Spangled Banner" and other airs. Londoners, generally informed by special additions of the continued satisfactory progress of the American attack and the Austrian peace offer, experienced an unusually jubilant Sunday and displayed exuberance and hopefulness that was in marked contrast with the gloom of the summer months. It was felt that with the American army fighting under the guns of the fortress of Metz and with Austria making what appears to be an official bid for peace, things at last were really moving in the desired direction.

Austria's note is in the hands of the government, together with the information that Germany has made a direct offer of peace to Belgium on the basis of restored political and economic independence and on condition of Belgian neutrality until the end of the war. No allusion to reparation or indemnity for the wrongs inflicted upon Belgium is said to have been made by Germany.

It is needless to say that these peace feelers make little impression on either the government or the people here. They are pointed out, however, as a revelation of speedy enemy appreciation of the meaning of American military participation in the war. The view held in political circles that Germany realizes she will soon be compelled to withdraw from Belgium and if she could secure a treaty barring Belgian territory to allied troops and aircraft she would be thereby protecting Germany against hostile attacks.

In the speech made at Manchester by Premier Lloyd George it is believed he replied in advance to any peace tentatives. In fact it is believed the premier knew Austria had this move in mind and that he was pointing out the move will have on the political situation here and the possibility of a general election.

HUN PLANES BOMB PARIS TWO HOURS

(Associated Press Telegram) Paris, Sept. 16.—Several enemy aerial squadrons flew over the region of Paris this morning. They were subjected to a heavy antiaircraft fire, but succeeded in dropping some bombs. There were a few victims and some material damages, according to an official report. The alarm was sounded at 12:25 and the "all clear" signal was given at 3 o'clock.

AVIATORS KILLED WHEN PLANE FALLS

(Associated Press Telegram) New York, Sept. 16.—Lieutenant Charles Kinney Jr., of Covington, Ky., and E. H. Austin of Boston were killed when an army airplane from the Mine Aviation field crashed to earth in the Flatbush section of Brooklyn today.

Hundreds of persons who saw the machine "go down" as it was lying low over trees and houses, witnessed its plunge into the back yard of a residence. The airplane was demolished.

JEWIS OBSERVE HOLIDAY

The Jewish merchants of the city have their places closed today in observance of Yom Kippur, the day of Atonement. Fastings and services are held all day.

TAFT CALLS MEETING TO DISCUSS NOTE

(Associated Press Telegram) New York, Sept. 16.—William H. Taft, president of the League to Enforce Peace, today called a meeting of the league to be held next tonight to discuss the Austrian peace proposals. Mr. Taft is hastening here from Washington.

WAR INDUSTRIES NEEDED HERE TO HOLD WORKERS

Work or Fight Order En-
forced Here Would
Disturb Conditions

NEW ORGANIZATION TO GO AFTER FACTORIES

Predicts Better Business
When Plans Made Are
Carried Out

What would happen to Newark if 2,000 of its laborers and mechanics were told to secure positions at once in factories producing war essentials? Have you, Mr. Manufacturer, Mr. Property Owner, Mr. Retail Merchant, Mr. Banker ever thought of this? Have you ever given this any thought at all or have you been letting well enough alone?

Newark must grow industrially, if she expects to progress. How can she grow, unless everyone puts his shoulder to the wheel. You and everyone living in Newark are vitally interested in the progress Newark makes. She must be put in the ESSENTIAL CLASS if she expects to retain her hold upon the laborers and mechanics she now has.

Some time during Tuesday, Wednesday, Thursday or Friday, September 17th, 18th, 19th, or 20th, you will be called upon by a committee from the Industrial Development Committee of the Chamber of Commerce, an organization for the advancement of Newark Industrially, who will present plans for GREATER NEWARK. Already a new factory is assured if this plan is carried out. Give them a word of encouragement, act favorably upon their invitation and speed them on their way.

The golden opportunity for Newark has presented itself. Manufacturers who before the war were producing articles in the ordinary lines of business soon found their factories being crowded with essentials of war. Many of them are in leased quarters or located in buildings limited in floor space. They have found it necessary to secure larger quarters where they will not be hampered by housing or power facilities. These factories when located will continue to manufacture articles in their old lines of endeavor after the war. There is no question about it. Business will be stronger than ever before and the factory that is permanently located will have all it can handle.

The one great thing that has been Newark's handicap is insufficient financial backing. No group of men has had the finances of Newark to back them in their endeavors to secure factories in the past. No one realizes this more than the Industrial Development committee which is made up of some of Newark's best men, men of unquestioned integrity, such as J. S. Herzog, Mayor H. A. Atherton, Prof. O. J. Barnes, George Hermann, E. T. Wagnalls, Wesley Montgomery, W. C. Metz, W. M. Morgan, J. F. Bonham, F. C. Evans, P. M. B. Windle, W. T. Suter, C. V. Wise, W. W. Davis, E. M. Baugher, all men who desire to see Newark grow and produce more.

The money is here in Newark, there is no question about it. The War Chest was filled to overflowing. Three Liberty Loans have been put over the top. The W. S. S. will be oversubscribed and the Fourth Liberty Loan will be put over. Now, right now, you must help put Newark over industrially. It can be done. It will be done if you will put listen to the plans as they are explained to you, and act favorably upon the invitation extended you.

Newark must begin to produce essentials. She has been let alone producing non-essentials as long as it is possible. We have been waiting. Uncle Sam says now produce essentials. What are you going to do about it? It is up to you. Let your conscience decide. Don't put it off. It may be too late the day after.

ORDERS \$3 FEE TO CHANGE PHONE

Washington, Sept. 16.—Telephone companies were directed by Postmaster General Burleson to make a flat charge of \$3 for moving a subscriber's telephone set from one location to another within the same premises. The order amends regulations made August 28, under which the charge was to be based upon actual cost.

GETS ORDERS TO FINISH TRAINING

Expecting to start across as soon as he had returned from his leave of absence at his home here, Lieutenant John A. Ward, resident here, received orders which entail his remaining in this country for two months or more.

He was ordered to proceed at once to West Point, Miss., for instructions in advanced flying. A pursuit school is located there and he will attend that for about eight weeks. Lieutenant Ward has been studying the machine gun

course in connection with flying at the Wright field at Dayton, and as previous squads finishing the course have been sent abroad Lieutenant Ward expected to leave soon. However, the entire squad with which he was training, about 125 men, have been ordered to West Point, Miss.

NEWARK PASTOR TELLS OF WORK IN CAMP COLT

Duties Differ Somewhat From Those of Army Chaplain or Y. M. C. A. Workers Among Soldiers.

At the First Presbyterian church last night Rev. Calvin C. Hazlett gave an interesting description of Camp Colt and his work as camp pastor there.

The camp pastor or voluntary chaplain originated with the entrance of the United States into the world war. He is the church's response to a need that grew out of the sudden creation of an army numbering millions. At the beginning of the war the church offered its whole strength to the nation and the offer was accepted. The Newark First Presbyterian church ofered its pastor, who after a period of training, New York was stationed at Camp Colt, on the historic Gettysburg battlefield.

Camp Pastor Hazlett, who has been very successful in his work among the "tankers"—Camp Colt being the training station for men who will operate the tanks on the battlefields of Europe—says:

"Man is a trinity—body, soul, mind. There are no divided loyalties and no interdependence. When the soldier fights the body handles the gun, the bayonet or grenade but it is the mind and the soul in the man that makes him superior or inferior to his antagonist. Hence the great importance of the cultivation and development of the powers of the soul. So long as the soul believes in the ultimate goal it cannot be defeated and insincerely the soul knows that the cause that is bound up with righteousness and humanity must eventually win. The great business of the church has to do with the soul. The church is giving her whole strength to aid the soldier in the development of soul vision and power that thereby he may become the most efficient fighting unit and so win the war. The camp pastor is the answer of the church to an imperative need of the hour. He does not usurp the dignity, honor, opportunities or usefulness of the chaplain. In his work there is no conflict with the chaplain, the Y. M. C. A. or K. of C. He does not attempt to supplant these. He simply supplements these magnificent forces and works with them in delightful harmony.

Dr. Hazlett expects to return to Camp Colt, Pa., tomorrow.

Beggar Made Good Money.

A lucrative profession was the description applied to begging in Edinburgh, Scotland, by a magistrate the other day. A man who was brought before him on the charge of begging was found to have collected in one morning nearly two dollars in half-pennies, about two dollars and a quarter in pennies, and just a little less than three dollars in silver. He was sent to prison for 20 days.

Don't rest on your laurels. An ounce of tomorrow is worth a pound of yesterday.

CHILDREN DROWN WHEN HUNS SUNK BRITISH LINER

Mostly Women and Children
On Board and 189
are Missing—Boats are
Smashed.

(ASSOCIATED PRESS TELEGRAM)

Plymouth, Sunday, Sept. 15.—Heart rending scenes were witnessed here when hundreds of survivors of the torpedoed steamship Calway Castle were landed at 7 o'clock Thursday morning. The passengers were mostly women and children it is believed that whole families have been lost.

Among the survivors were little tots scarcely able to walk, crying in vain for their parents. Parents were searching in all directions for news of their children and women were seeking vainly for their lost husbands.

It mattered nothing that warm dry clothing was distributed to take the place of the scanty attire the survivors snatched as they left the ship. Their one thought was to get news of their relatives and friends.

There seems no reason to doubt that the vessel torpedoed without the slightest warning. The explosion occurred between the engine room and the stokehold, a fact which is taken to rule out possibility that the ship struck a mine. The explosion caused comparatively little noise but caused the ship to buckle in a most extraordinary manner. She was injured at the extreme bottom and was bent and torn clear to the upper deck and seemed likely to break in two at any moment.

Fearing that the liner would founder at any moment, Captain Dyer ordered the boats lowered and issued life belts to all passengers. One boat was swamped, another was damaged because the foils became fouled and another was swept back against the liner by a wave and smashed by the propeller. Another narrowly escaped a similar fate.

Calway Castle, of 7333 tons gross, had 1000 persons on board, of whom more than 500 were reported saved. The missing from the torpedoed ship number 189. The missing include 120 passengers, 36 naval and military officers and men and 33 of the crew.

Ninety-third-class passengers lost were without exception women and children. There were about 300 women and children aboard.

AGOO DSUGGESTION FROM D. P. McDONALD

Editor of the Advocate—Every citizen in Newark is desirous and anxious to see the city prosper, and if he sees any SINCERE movement to advance its interests, he will co-operate. When a community is aroused and works together nothing is impossible. Witness the War Chest celebration. That celebration demonstrated beyond doubt what Newark can and WILL accomplish.

Newark has no disadvantages. Everything is in its favor.

However, the citizens of this city want to be "shown" before they will have any faith in the article offered for sale. They are intelligent and want to be heard. The newspapers of this

city have been sincere boosters of the city's advantages. Why not have a department in the daily papers for discussions of means to advance our city. Call it the "Forum." When our people travel to other communities, let them observe the reasons why these communities grow, and on their return present these reasons or plans to the readers. Here is an illustration.

In July of this year I was traveling by auto from Pittsburgh to Gettysburg on the Lincoln Highway. When I came within a few miles of Gettysburg, which is two or three miles off the Highway, huge signboards were erected inviting the tourists to Gettysburg. The Industrial City. Thousands of tourists pass over the National Pike at Gettysburg, who have never heard of Newark, haven't the slightest idea that so beautiful a place is so near. A great many of these would come to Newark if INVITED, they would spend money here, see a pretty city, and proceed on their journey without any appreciable loss of time. Erect a sign at Gettysburg.

Another illustration:

I was told by a citizen in a northern Ohio city this summer how his town raised money to boost its community. A committee was organized and purchased a tract of land adjoining the city, which was desirous in every way for homes, the plot was divided into lots, streets and sidewalks were laid out, trees planted, etc., and three houses were built, one for \$1000, one for \$3000, and the other for \$200. Then the whole thing was sold at auction, the lucky ones drawing the lots with the houses. In this way a substantial sum was realized, and with the money, two good plants were located, which today are said to be the largest in the city.

Nothing produces more good for any city than a live, community spirit. Invite the citizens to contribute IDEAS as well as money. On the newspapers to these discussions. Have forum meetings; give the people a voice in the conduct of any movement for the advancement of the city. Meetings to plan closed doors should be encouraged. Every movement for the city's welfare, should result from meetings to which the public is invited. There should be no self-appointed committees; let the people know who are back of these plans. Publish the names of the committees. If the people of Newark, are given a voice in these matters, there need be no worry of financial assistance. Newark is the best city in the United States, and those who do not think so should visit other cities for the sake of comparison.

Very respectfully,

D. P. McDonald.

COUNTRY SCHOOL SELLS \$9,795 W. S. S. DURING VACATION

Miss Della Hessin, R. D. No. 1 Granville, a teacher in the school in a Union township school, sold \$6,130.25 worth of War Savings Stamps during the summer vacation and is entitled to the rank of "General." Harry Dale, teacher of the same school, sold \$575 worth of stamps during the vacation and good records were also made by Harriet Haynes and Watkin Wells. This one school during the summer vacation sold \$9,795.50 worth of War Savings Stamps.

"Success and failure are both sprinters," observed the Wise Guy. "Yes," agreed the Simple Mug, "but while success always seems to keep just ahead of a fellow, failure is apt to overtake him."

Classified Ads bring results.

Advertising Guarantees Standard Quality at the Right Price

COPYRIGHT 1918
By R. & L. Co.

By H. E. Romer, Secretary-Treasurer
The Munson-Romer Company
Columbus, Ohio

NUMBER
10

A series of fifty-two articles written by experts on advertising for your benefit. They will appear in The Advocate. Read them and learn how advertising helps you.

Anonymous letters seldom bring good news. When a man has something pleasant to tell, he is glad to sign his name.

Did you ever consider that a trade mark is the signature of a manufacturer, and that goods which are not trade marked are very similar to anonymous letters? When you are offered a bar of soap, a tube of tooth paste or any other article which does not carry a trade mark or easily recognized name, you are justified in being doubtful of the quality.

When ads are trade marked and advertised, you can generally trust them. The manufacturer who trade marks and advertises his wares makes them readily identified. He places himself at the mercy of the buying public. If the article he sells is good, people ask for it by name, while if the article is not good, the name enables you to easily shun it. Manufacturers realize this fact and when they place their trade mark—in other words, their signature—upon the goods they offer for sale, they are proud of the quality and not ashamed to stamp them as their own.

It is bad business to advertise a poor article. The costly advertisement which influences you to try a ten cent glass of grape juice or a twenty-five cent tube of tooth paste often costs more than the total sales resulting from that advertisement. The manufacturer makes his profit only after you are pleased with your first purchase, and, calling for his goods by name, keep on buying again and again. Manufacturers realize this fact and when they place their trade mark—in other words, their signature—upon the goods they offer for sale, they are proud of the quality and not ashamed to stamp them as their own.

When you buy unnamed goods, you are taking a chance—they may be all right, but the odds are against them.

You can feel satisfied that if the quality were all that was to be desired, somebody would be putting his name on the goods and claiming the credit for them. But when you buy goods that are both trademarked and advertised, you are buying something that the manufacturer is proud of; if not, he would be committing financial suicide to attempt to market it by the power of advertising.

When you see an advertisement which has appeared time and time again, you can be sure that the article is making good—that it is repeating and making friends—that it is worthy of your confidence. You can be sure that the manufacturer will keep his name in good repute by maintaining highest quality of goods and by keeping prices as low as possible.

If you have been in the habit of buying canned corn of such and such a brand, and receive a spoiled can, the label will enable you to avoid that same brand in the future, while if the quality is always good, the label enables you to ask for this favorite brand, and be sure of getting good quality always.

The manufacturer realizes that he loses much more than one sale every time the quality is bad. For that reason the trade mark is your strongest safeguard and assurance of good goods. Remember these facts when you buy. Remember that the manufacturer is spending valuable dollars to influence your first purchase of a few cents, and that he has unlimited confidence in the quality of his goods, feeling sure that after you have made your first purchase, you will buy again—keep on buying—and tell your friends of the article.

It pays to buy from the advertising columns of your favorite newspapers or magazines. If you will think it over, common sense will tell you that this is the one sure method of being guaranteed a standard article at the right price.

HUN PEACE NOTE COLDLY RECEIVED

Allied Capitals Agree That
Efforts of Central Powers
are Doomed to Failure.

(Compiled from A. P. Dispatches.)

While Austria was preparing her note to the belligerent nations, proposing that they meet in informal discussions of peace terms in a neutral country, the Allies were busy making arrangements to make another offer of separate peace to Belgium. It is announced that the Belgian government has been approached with a proposal that if she will remain neutral during the remainder of the war, Germany is ready to withdraw to the frontiers that were violated in August, 1914.

It is affirmed from Berlin that the Austrian government acted on its own initiative in sending out its peace proposals, but the offer of Germany to Belgium points to what may be said to be more than a coincidence and probably a desperate "peace offensive" now well under way.

If official comment is reflected by newspaper comment at the entente capitals the efforts of the central powers to reach a peace by negotiations are doomed to failure. In London and Paris the official comment is coldly received while at Washington it is pointed out that the United States will not entertain any peace tentatives that can, at best, bring only a temporary respite from hostilities and will leave Germany and Austria free to break the peace of the world at any future date.

Even in the German press there seems to be little hope that the allies will agree to meet representatives of the central powers. The newspapers of Berlin point out that similar steps in the past and that while the people will no doubt be hopeful for a cessation of the struggle, there is little prospect of its early termination.

Along the battle line, American attention is directed chiefly at the front in Lorraine, where the Americans are under fire from the fortress of Metz and are apparently making ready for a drive against the "kriemhild" line, to which the Germans withdrew their shattered columns from the St. Mihiel salient. Along this front American forces are on the threshold of Germany. The victory of General Pershing's men has had more than a merely local effect. German lines to the southeast have been weakened by the terrific blow dealt along the heights of the Meuse while the American forces are making ready for a drive against the "kriemhild" line, to which the Germans withdrew their shattered columns from the St. Mihiel salient. Along this front American forces are on the threshold of Germany. The victory of General Pershing's men has had more than a merely local effect. NEWARK SOLDIER TAKES PART IN TILT WITH MEXICANS ON BORDER

Was On Scene Few Minutes After Trouble Started at Nogales and Was With Units Which Crossed Into Mexican Territory.

Newark men in Uncle Sam's army have been some interesting scraps with Kaiser Wilhelm's flunkies in the fracas across the pond, but while that is attracting the most attention just now, others in olive drab have put on a little side show on the border which is graphically described by Elmer Christofferson, Company F, 35th infantry. The show would not have got passing notice had it occurred "Over There" but occurring on the border it stirred up some excitement for a few days.

"A Mexican who sought to cross the line, carrying a rifle, was responsible for the shooting," Christofferson writes. "The entry stopped him but the Mexican fired the gun at him, the entry shot him and then the battle started."

"Nearly every entry on post on the border was wounded. It wasn't long afterward that what is left of the 35th regiment got to the border. My company had just been ordered to San Antonio and I was on the wagon which hauls our blankets to town when we are on guard duty when the fight began. I was passing down town when I saw cavalrymen running from their barracks. I thought it was a fire call, until I saw some excitement in town and saw that everybody was looking toward the border.

"We hurried into town and soon were hearing the bullets whistle over our heads. Our company was not yet on the scene so I joined H company which was hurrying into action.

"The Tenth cavalry, right down behind the company, just as fast as the horses could run. There were three troops of them, yelling at the top of their voices and in a few minutes were in skirmish line close to the border.

"We fired about 15 minutes and then advanced into Mexico as fast as we could run, which was very difficult on account of the steep hills. Believe me, the Mexicans surely ran off the hills when they saw us coming. Three troops of the tenth cavalry were in the middle of a two mile line, flanked on either side by companies of the 35th infantry. My company advanced about a half a mile into Mexico while other units advanced a mile or more.

"With two pals I was ordered to rush several shacks where Mexicans might be hiding but no one was in them. As we looked out of the window of one, bullets fell on the roof like rain. We sought shelter behind some rocks and returned the fire. I got in some good shots but don't know if I hit any of them or not.

"The officers had difficulty in getting the boys to retire to the U. S. side of the line. We were reinforced by other troops of the Tenth and a couple of companies of the 35th infantry. Three companies of the 35th infantry arrived Aug. 30 so I think my

ARMY CASUALTIES

The following casualties are reported by the Commanding General of the American Expeditionary Forces:

Killed in action.....	17
Missing in action.....	93
Wounded severely.....	162
Died of disease.....	4
Wounded, degree undetermined.....	9
Died of wounds.....	8
Wounded slightly.....	1
Died from accident and other causes.....	2

Total..... 296

The Ohio casualties announced today are:

Killed in Action.
Corp. Roscoe Gray, R. D. 2, Lima.
Pvt. Wm. McK. Krifas, Cincinnati.
Wounded Severely.
Pvt. August Ehler, Toledo.
Pvt. Clarence McCully, Buford.
Missing in Action.
Pvt. Raymond L. Horn, Rayland.
Pvt. Lawrence S. Roof, Ottawa.
Pvt. Cecil R. Shenk, Akron.
Pvt. Jack A. Adler, Cincinnati.
Pvt. Louis Art, Cincinnati.

MARINE CORPS CASUALTIES.
Killed in Action.
Pvt. Lee Pitzer, R. D. 1, Hamersville.
Wounded, Degree Undetermined.
Pvt. Wm. E. Ballinger, Dayton.

\$2.65 INVESTED BY EVERY CITIZEN WILL FINISH QUOTA

The sale of \$27,356 worth of War Savings Stamps this week will bring the Licking county total up to \$1,100,000. Then there will remain \$136,180 to sell in order to put Licking county in the Victory class.

Recent additions to the Thousand Dollar War Savings club are Thomas H. Avery of Outville, Miss Alice Nelson of Columbus, M. F. Romine, R. D. Nashport, James O. Redman of Toledo, Mrs. T. P. Edman of Ulick, R. D. 2, Louis Ostrov and T. J. Irwin of Buena Vista street. The Licking county Victory list (buyers of 200 U. S. S.) now numbers nearly 600.

A War Savings Stamp costs \$4.20 this month. The stamp will be worth \$5.00 January 1, 1923. That means it pays 47 per cent interest. It is not taxable. You can get your money back any month you want it and the stamp grows in value at the rate of one cent every month. That is why War Savings Stamps are the world's best investment.

Only ten counties in Ohio have sold more War Savings Stamps than Licking. They are: Muskingum, Butler, Clark, Stark, Franklin, Hamilton, Montgomery, Mahoning, Cuyahoga, and Lucas. However, 23 counties have a larger per capita sale than Licking. Morrow stands first with a per capita sale of \$30.50. Licking's per capita sale is \$17.35.

Here are the Ohio counties that have gone over the top in War Savings: Morrow, Ashland, Morgan, Highland, Knox, Warren, Seneca, Noble and Madison, Meigs, Holmes, Coshocton, Richland and Muskingum are nearly over. Licking will go over when additional stamps amounting to \$163,531 are sold. That means \$2.65 for every man, woman and child in the county, but at that it means that the purchase of one U. S. S. by every other citizen of the county would turn the trick.

PARENTS Don't Miss Meeting This Youngster HERE!

Something New and Better in Children's Footwear
**THEY FEEL LIKE IRON
FEEL LIKE VELVET
LOOK LIKE
A MILLION DOLLARS**
\$4.00, SIZES 7 TO 12
PRICED \$4.50, SIZES 13 TO 2.
Built on a close-to-nature last that gives the necessary support to growing feet, perfect freedom to toes and joints, and yet possesses the style and distinction of the handsomest, most faultlessly made shoes for grown-ups.

WAR BOARD BANS SPECIAL EDITIONS

Washington, Sept. 16.—Additional orders effecting the publishing of newspapers were announced by Chairman Baruch of the war industries board, to bring about a further saving of print paper. The board rules that publishers shall not use premiums, contests or similar means to stimulate circulation, that no holiday, industrial or special issues shall be published and that papers shall not be sold at retail for less than the published price.

Legitimate methods of stimulating circulation are held to be billboard and dead wall poster advertising, buying space in contemporary papers announcing special features, making announcements in Sunday or daily editions of special features to come and canvassing without offering premiums.

TWO SOLDIERS AND TWO NURSES SERVE

Zanesville, O., Sept. 16.—Miss Helen Shea, Good Samaritan hospital nurse, has been notified that her brother, Sergeant Thomas Shea, wounded in the line of duty three weeks ago, when a shell burst near him during an action in France, is now at 'em again.

Sergeant Thomas Shea was taken to base hospital No. 15 and there he met his sister, Miss Mary Shea, formerly of the Good Samaritan, who went overseas for duty in December. They had not seen each other for several months. Another brother, Lieutenant Joseph Shea, is on duty at a southern cantonment.

NEWARK BOYS GET TRANSFER ORDERS

Two Newark boys who were inducted into general military service and assigned to the mechanical institute at Cincinnati, have been transferred. On Friday, Harry Factor and Charles Westbrook went through Newark en route east.

The Ohio War Board Says Today

The Ohio Defense Council endorses the action of the President General of the National Society of the Sons of the American Revolution in calling upon all to fittingly observe the seventeenth of September as Constitution Day.

This is the anniversary of the adoption of the Constitution of the United States of America, a day which means so much to this republic and to the preservation of democracy.

He urges that there be general display of the United States flag and that the various departments of education in States and municipalities open the morning session of all schools with exercises reciting the story of the birth of the constitution.

25 Years Ago

Dr. George L. Shipp of East Main street is visiting his parents in West Virginia.

Mr. and Mrs. John Stegert and children, of West Main street, are visiting Mr. and Mrs. L. B. Hall in Church street.

Mrs. Wm. M. Stewart of West Main street and daughter Fay are spending a few days in the country visiting with friends.

Mrs. Will Webb of Cincinnati came up yesterday for a week's visit with Mr. Webb's parents Mr. and Mrs. J. W. Webb in Granville street.

FIFTEEN YEARS AGO

The Tuesday afternoon Euchre club was entertained this week by Mrs. James K. Hamill at her home in North Fourth street.

Born to Mr. and Mrs. Thos. J. Daily on Granville street a daughter.

Mrs. A. R. Haines has returned from her Zanesville visit.

Mr. and Mrs. William Prout returned today from their southern trip.

Mr. Easher of Sioux City, Iowa, was a welcome visitor at the Elk meeting on Tuesday night.

Bottling Fruit Juice.
Cut up crushed fruits, stem grapes, use berries as received, and use a lemon cone to extract juice of citrus fruit. Heat slowly to simmering point. The flavor is finer if fruit is not allowed to boil. Do not heat citrus fruit through cloth bag and allow the juice to stand in cool place to settle.

To bottle, seal bottles and fill to within one and one-half inches of the top. Place in hot water and set bottles on a rack in a boiler or tin down the corks and lay bottles on side with enough water to cover. A screen at the bottom of the boiler will prevent breaking. Heat the water to simmering point (180 degrees) and keep at this point for thirty minutes.

Remove the bottles, stand on end, and dry the cork with a towel. When nearly cold, press cork in firmly and dip top of bottle in melted paraffin or sealing wax. Store upright in a cool place.

FORMER STATE SENATOR DIES.
Cincinnati, O., Sept. 16.—Former State Senator John C. Fisher, 80, founder of the Daily Times, later merged with the Times-Age and the Tribune, who served in the Ohio senate with President McKinley, died suddenly at his home here.

TWO PAIRS TWINS MADE BIG LOT OF WORK FOR MOTHER

They Caused Mrs. David Harris To
Be All Run Down Till Nerv-Worth
Came to the Rescue.

A royal friend of overworked women is this famous family tonic of its wonderful merits in the following statement made to the Nerv-Worth druggist at New Castle, Pa., a short time ago:

"New Castle Pharmacy—My wife has suffered from severe nervous trouble for four years. Could not sleep and get any rest. Was all run down from looking after my twin boys, four old, and another pair of twins, nine months old. She doctor'd a great deal but got no relief. Through a friend she was advised to take Nerv-Worth. I purchased a bottle and she at once began to improve. And now, after taking the second bottle, she has lost all nervousness and is rapidly gaining weight and strength. We surely recommend Nerv-Worth as it has been a blessing to us."

DAVE HARRIS,
411 Vine St., New Castle.
T. J. Evans sells Nerv-Worth in Newark. Your dollar back if this famous family tonic does not benefit you. Neighborhood agencies: U. W. Drug Store, Ulick; Hobson Drug Store, Hebron; W. P. Ullman, Granville; C. S. Howard, Johnstown. (Adv.) 9-13-16

The Dog Star.

In ancient astronomy one of the prominent constellations of stars was called Canis Major, Greater Dog. The principal star in this constellation is Sirius, which is much the brightest star in the heavens. It is larger than the sun and far more distant, so distant, in fact, that its light is eight years in reaching the earth. The ancients believed that at a certain season of the year when Sirius, the dog star, arose with the sun, it added to the heat and the period of conjunction was called "dies canicularis," or dog days, because they were supposed to bear the combined heat of the dog star and the sun. The period extends from early in July to late in August, but modern astronomers know that Sirius, the dog star, has nothing to do with the so-called dog days. The phrase is a survival of ancient superstition.

Dan Kelly's Excuse.

Dan Kelly, arrested on a misdemeanor charge, narrowly escaped facing an additional charge of contempt of court when he was found asleep standing up in the court room. Kelly, who has only one natural leg to stand on, the other being of seasoned oak, explained to the court that for years he has suffered from asthma and has long been accustomed to use his wooden leg for a prop, and sleep standing up. He said he had become so accustomed to this position for slumbering that he forgot he was in the court room.—Marysville, Cal. Item.

LIMITED SERVICE MEN ON GUARD IN FORT

Licking County Boys Stationed at Historic Fort Ethan Allen, Vermont, One of Oldest Army Posts.

Limited service men inducted into Uncle Sam's big army through the Newark board, are now doing guard duty at Fort Ethan Allen, Vermont, and expect to be retained there looking after the post until spring when another bunch of recruits will move in and be given a course of training. E. J. Reitor, first sergeant company A, 31st battalion, U. S. Guards, a Newark boy is a member of one of the units. Reitor acknowledges receipt of the medal presented before he left for Camp Sherman and says he is proud of it. "No one I have met here besides the Licking county boys, have anything like it," he says.

"I was transferred from Camp Sherman the morning of the 13th and arrived at Ft. Ethan Allen the evening of the 13th," Reitor writes "after a fine trip through New York state and over the mountains and through Vermont.

"This is certainly a fine climate, but very cool at nights as we are quartered in tents for the present but expect to move into the barracks as soon as the cavalry units leave.

"I hope we do move out of the tents before winter as the people tell us that it was 40 below last winter.

"Ft. Ethan Allen is one of the oldest and the best army posts in the United States, but the winters are too severe to permit drilling and we expect to stay here and look after the post until spring when they will move another bunch of recruits in for training.

"We are what are called the Reserves and I doubt if we ever get across the pond."

Abe Martin

AMUSEMENTS

ALHAMBRA.
Tonight and Tomorrow.
Divorce, that problem eternal, upon the reduction of which the greatest minds of the world have labored unsucessfully, will be shown with all its attendant evils in "The Blindness of Divorce," at the Alhambra theatre to-night and tomorrow.

"The Blindness of Divorce," is a brilliant William Fox photodrama of social conditions of the hour, which has so much of human interest in it, that it cannot fail to entertain every one. It is a virile, vital message to every one.

"The play is the work of that cinema master, Frank Lloyd, who directed "Les Miserables," "A Tale of Two Cities" and "When a Man Sees Red," a trio of screen dramas which have been pronounced the best ever made.

GEM.
Tonight.
Thomas Meighan, the talented screen star who has recently appeared with Pauline Frederick in many of that star's best known pictures, is now appearing with the charming Billie Burke in the latter's latest production for Paramount, "The Mysterious Miss Terry," a thrilling mystery story full of "human interest" and comedy touches and containing one of the most fascinating love stories imaginable. Billie Burke and Mr. Meighan in "The Mysterious Miss Terry" are coming to the Gem theatre tonight.

LYRIC.
All this week Hal Hoyt's All-Americans. Everything new but the name this season. Mr. Hoyt has put together one of the best shows he has ever had and it is one of those shows that is full of vaudeville features, and the kind of a show that will suit every one that comes to the Lyric this week, and it is a show that is full of musical features. First on the list is The La Monts, tenjo experts. The Musical Walkers on their Musical Novelty Act; Miss Lillian Keller, Descriptive Violinist; Miss Ethel Vevea, prima donna, and Mr. Maurice Levine, Jew comedian, and a host of others. The opening bill is called "At Palm Beach," and is full of good clean comedy, and new songs and dances. Every matinee this week will be free to children if accompanied by their mothers. Just bring the kids and pay the war tax.

Omaha, Neb., with the Guaranty Se-
curities company, has been transferred
to the Denver office of the company.

Go to Camp Beauregard.
James Schaller, attorney, and in the
attorney general's office, Columbus, who
was inducted into the limited military
service in the office of the judge ad-
vocate general, will be stationed at
Camp Beauregard, Louisiana.

Enters Wooster University.
Frederick Woodbridge son of Mr. and
Mrs. F. L. Woodbridge of East Main
street is attending school at Wooster,
where he will take military training.

Son Arrives Safely.
Mrs. John Fisher of Day avenue has
received word of the safe arrival over-
seas of her son John of the 333rd In-
fantry.

Has Operation Performed.
Fred Hanthorn of Johnston was taken
to the City Hospital today to be
operated upon for appendicitis. He is
a nephew of Roe Emerson.

Swimming an Excellent Exercise.
Swimming is undoubtedly one of the
greatest all around body builders. It
is best to try to do your swimming in
salt water which is exposed to sun-
light. One can usually bathe in such
water as long as he feels comfortable.
The fleshiness and physical condition
of the individual governing the dura-
tion of time in the water. Thin and
rawboned persons cannot usually stay
in the water long. Plentiful persons
can stand much more of it. Some per-
sons should not attempt to remain in
the water more than 15 minutes at a
time, while others, especially when ac-
customed to it, can remain in the wa-
ter for hours and feel no bad effects.—
Physical Culture.

Treasure Island in Favor.
The American boy has very enthu-
sastic tastes in literature. Ten years ago
the University of Illinois made inquiry
of 24 American public libraries as to
the 12 most popular books with their
boy readers. The result gave "Treasure
Island" second place in the list. A
second inquiry just completed finds
the same story at the top of the poll
by a substantial majority. The result
is the more interesting because "Treasure
Island" was not, at its first ap-
pearance, a great favorite with boys.

Conscription Under Moses.
Moses made the first conscription
law. He wanted an army and he made
this rule: "From twenty years old
and upward, all that are able to go
forth to war in Israel" were to serve.
His registration boards were also al-
lowed to grant exemption which in-
cluded men who had new houses not
yet "dedicated," and those who had
vineyards of which they had not yet
eaten and finally those who were
afraid to fight.

Useful Insects.
In addition to the insects which
help man by their warfare against his
enemies and those that are useful to
him in medicine, there are many others
that serve useful purposes in a
commercial way. Most familiar of
these are the honey and wax obtained
from the bee. There is a Chinese bug
which secretes a kind of grease on
trees. This hardens into wax and is
collected, melted and purified when it
becomes white and glossy in appear-
ance, and when mixed with oil it can
be made into candles.—Chicago Her-
ald and Examiner.

Spasmodic Sermon.
No matter how anxious a girl may
be to get married quietly she'll find
that it can't be done without ceremony.
—Indianapolis Star.

EX-WAR SECRETARY TO TRAIN TROOPS

Col. Henry L. Stimson.
Col. Henry L. Stimson has been
called back from France to take com-
mand of the Thirty-first field artil-
lery regiment in training at Camp
Meade, Md. He was active for years
in the New York national guard. He
was lieutenant colonel of the bat-
talion that fired the first shell from
the national army against the Huns.
The shift came a promotion for
Stimson, but he regretted being cal-
led away from the battle front.

Famous Geysers.
The most famous geysers in the
world are those of Iceland, which
number over a hundred, the principal
one having an opening of 70 feet in di-
ameter and discharging a column of
water to a height of 200 feet. There
are also wonderful geysers in the Yel-
lowstone park region of the United
States, and some in New Zealand. Geys-
ers are hot springs of volcanic or-
igin and action, and are remark-
able for the fact that they throw out
great streams of boiling water and
steam, instead of lava, as in the case
of a volcano.

A Woman's Answer.
When asked how much stuff she
had canned a Jacksonville woman re-
plied that she had canned a powerful
lot, sold a heap, and had a right smart
mess left.—Florida Times-Union.

Their Effect.
"Miss Flirty has such a captivating
way of shooting glances at you un-
der her eyelashes." "You had better
look out. Her shooting glances are
perfectly killing."

The trouble with some people is
that they believe one good turn de-
serves a better one.

With the high cost of living there
isn't much difference between the high
ways and the by ways.

Decayed or Broken Teeth

Strange to say, in these days of advanced dentistry, the first
thought of a patient, when a decayed, broken or loose tooth is dis-
covered, is to get it "pulled," when he should consider the extraction
to be only as the last and extreme measure.
Teeth are so valuable to be lost without an effort to save them.
It is my firm conviction that 99 per cent of the extra mouths are pre-
served. They could and should have been saved and the dentist
who resorts to extraction without first showing his patient that a little
filling or crowning of the tooth will save it indefinitely, is indifferent
to the health of his patient's welfare.
Extraction is a last resort for relief.

**Do You Save
Or Waste
On Clothes?**

THE ANSWER to that
question is—You do;
one or the other; save or
waste.

- 1 Don't buy if you have clothes that will do;
some men have plenty.
- 2 Take such care of your clothes; keep them
cleaned; pressed; hung up carefully when
not in use; make them last longer.
- 3 If you think it necessary to buy, be sure of
good quality; get clothes that will last long
and look well, so that next season you won't
need to buy.

"The Store Where Quality and Service Count"

I WANT AD IN THE ADVOCATE SOLVES THE SERVANT PROBLEM

There Is No Question---

but that at all times of wearing apparel will be higher priced later on. In fact, manufacturers are now quoting to 50 per cent. higher prices than we paid for present stocks. Then the proposed luxury tax will greatly enhance prices in practically all lines. The Government requests you to anticipate your needs and to buy early. Economy is the watchword of the Nation, and there is no greater opportunity to economize than buying at present prices.

This Week Will Be the Best Week To Select Your New Suit or Coat

Mid-September brings the first bright autumn days when there is real pleasure in wearing the stylish fall models, and it's not one but too early to make your fall purchases. All-wool fabrics are getting scarcer every day. As you know, prices have advanced over those of a year ago, and every indication points to still further increases.

The Styles We Are Showing

are the assured styles of the season, and you have everything to gain by buying now, and for this week we have arranged a more complete showing than we will have at any time later in the season. The Coat or Suit that the well-dressed woman demands today is a garment of assured style, that is in keeping with whatever the occasion may be. You will find just such garments in our

Complete Showing of Woolltex Fall Styles

We have made special effort to have complete selections of new fall garments this week, and never before was our showing more interesting.

NEW FALL COLORS--ALL WOOL FABRICS UNUSUALLY MODERATE PRICES

Make this early showing one that the fore-sighted buyer will take advantage of, and while Woolltex is famed for its handsome wool fabrics, many of the more desired ones will be very scarce later in the season.

STREW PATHWAY WITH FLOWERS

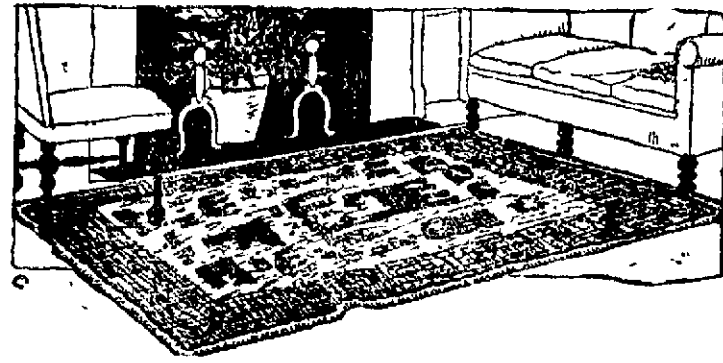

Ohio Regiment Marches Through Italian City While Showers of Blossoms Fall From House-Tops.

With flowers for their path and arms loaded with them our boys parade through the streets of Italian villages, according to a letter written by Private Roy C. Toothman, Company D, 23rd Infantry, A. E. F., Zona-di-Guerra, Italy. His regiment spent one Sunday afternoon in a big city in Italy on parade. Hundreds of people were at the station to greet them with baskets of flowers and each soldier was given a bouquet. When the boys paraded through the streets, the crowd strewn their way and showered the blossoms on them from the tops of houses and buildings.

Mr. and Mrs. Chas. W. Toothman, 112 South Second street, received the following letter from their son, Roy C. Toothman, who is with the American expeditionary force somewhere in Italy:

"Somewhere in Italy. Dear Mother—I surely had a fine trip through France to Italy," his letter says. "We passed through the Alps and they were certainly a sight worth seeing. We passed Mont Blanc. That's the highest point. Think of mountains extending up into the clouds. On the sides and tops of the mountains one could see the snow that looked to be about an hour's walk, but, of course, it was much farther. "At every station there was a band and crowds of people waiting to greet us. We received hot coffee from the Red Cross, also, candy, cigarettes, matches, and little cakes. "We stopped in a large city on Sunday about noon, and spent the afternoon there parading about the city. I think everyone in town turned out with a basket of flowers. They handed us flowers at the station. As we marched through the streets they threw flowers at us and all you could see was flowers coming from all directions. They rained down from six and seven-story buildings until we were walking in a path of flowers. The streets were so crowded that in some places we couldn't march and had to crowd our way through cheering, such as you never heard. After the parade they gave us cold soft drinks and little cakes. "The other day we paraded before the king of Italy. It was a great parade. He was much pleased to see us and thought our band was a wonder. I suppose you read in the paper about the king reviewing American troops in Italy. They took moving pictures of it so you may get a chance to see it in a month or so. "This is like living in California. We just got here in the right season. All kinds of fruit and all we want to eat—large, white and red plums; large, red cherries; peaches, apples, oranges, peaches, hazelnuts, almond nuts, and the large lemons you ever saw—as big as your fist—and they are able to grow like oranges. All we were able to get in France were nuts, figs and dates, and we sure enjoyed this fruit. "The weather is hot here and there is very little rain. You would think that everything would be burned up, but they have an irrigating system that

Every One Wants Their Home Comfortable and Cosy For Winter ---- New Carpets, Rugs and Draperies

At Prices Like These Solves The Question

You know that prices on all home furnishings are advancing almost every day. keeps the ground damp all the time and everything is green and looks fine. "Off in the distance we can see the mountains with snow on them and we have a stream of melted snow-water that runs from these mountains that's as cold as ice-water. We go swimming in this stream and it sure makes us feel fine. "I forgot to mention that they have some of the finest cantaloupes you ever saw. Some are larger than your head, and with very thin rind. There are also grapes here. Everywhere you look you can see a grapevine. Tomatoes, cucumbers, onions and all kind of vegetables are also ripe. Your loving son, Roy."

CAMP SHERMAN BOYS WILL PITCH HORSESHOE

Tournament Will be Held to Determine Champion of Camp—Rules Are Agreed Upon.

(ASSOCIATED PRESS TELEGRAM) Camp Sherman, Chillicothe, Sept. 16.—A tourney to determine the horse-shoe championship of Camp Sherman will be started Sept. 23 by the Y. M. C. A. Horse-shoe pitching ranks closed to the most popular sport in camp. The "Y" men say the pitching distance will be 46½ feet and the pegs shall protrude six inches above the ground. Any soldier in camp is eligible to enter. A game shall end when the winner makes 21 points. Fingers will count 3 points; leathers 2 points, while one shoe, the nearest the peg, will count 1 point. Fingers of the pitchers will be wrapped with tape. Entries will close the day before the tournament will start. This will give the Ohio men in quarantine a chance to enter. A man once defeated will be eliminated from further competition.

No. Maude dear; there is no similarity between the milkweed and the cowslip, nor do buttercups grow on either.

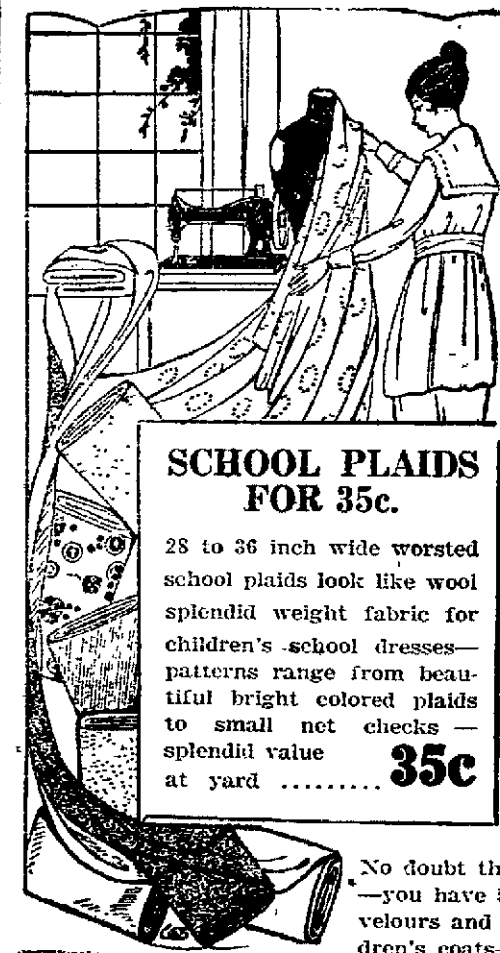

I'LL TAKE POSTUM!

—you hear it more and more when one is asked what he'll have for his morning drink.

BOYS GIVE UP MANY THINGS ON SEA VOYAGE

But Their Identification Tag Stays With Them Always Because It Is Fastened To Them.

Landsmen in Uncle Sam's army suffered the usual discomforts of the traveler on his first voyage across the Atlantic but enjoyed the new experience nevertheless. Raymond Harcroft, son of Mr. and Mrs. K. A. Harcroft, Crilly avenue, writes that many of them lost about everything they had except their identification tags and these were tied around their necks. "I have slept in a hammock," Harcroft says in a letter written on board the transport, "and rested fine but about the fifth night it disappeared and I have been sleeping on a bench with my life preserver as a pillow. "There is a Y. M. C. A. on board which helps us pass away the idle moments. "From a rest camp in England, Harcroft wrote later: "Some day when we are not bothered with censors I can tell you about our trip. "We have traveled about 5000 miles, though we are not much more than 4000 miles from Ohio. England appears to be a place populated with old men and women and a lot of children. The

city I passed through does have double decked street cars, elevated roads and one steam line which I understand makes about four miles an hour."

DO AND DON'T ECONOMY
Two ways of saving food there is: Do and Don't Economy. Don't is just the dreary sort—lightening bells and "cooking short—keeping ration rules in mind. "It is much the harder kind, and absolutely necessary. Do provides

a better slow. Do means making food-crops grow. Do is good, productive toil—digging every foot of soil. Do Economy is fun—growing twenty squids from one. Don't Economy and Do, hand in hand, will see us through. Don't is Do's defensive brother. Each of them must help the other. "Hell, Heaven or Hoboken by Christ-mas" is the inspiring slogan of Uncle Sam's boys at the front.

"BOOZE DOES CLOG UP THE MENTAL EQUIPMENT"

THE NEAL TREATMENT INCREASED EFFICIENCY OF THIS MAN JUST 100 PER CENT

"My general efficiency and brain power have increased 100 per cent, which proves to me that booze, like drugs, does clog up the mental equipment," writes a Cleveland man who took the Neal Treatment for drink habit last May and is still rejoicing over the marvelous results of his three days' stay at Cleveland's Neal Institute. The man who is using much of his efficiency through drink is invited to investigate the Neal Treatment, which

offers the best possible investment for him. The Neal Treatment will add to the earning power, happiness and health of any drinker. Three days of this physicians' harmless, vegetable remedy, taken internally, without any dangerous hypodermic injections, will change craving for liquor into intense dislike of everything alcoholic. There is no publicity. Investigate. For booklet "The Neal Way," write or call. The Neal Institute, 3920 Euclid Avenue, Cleveland, Ohio. Telephone Roseade 3490.
